INDEPENDENT AUDITOR'S REPORT

Jeanette L. Garcia,
CPA

To the Board of Education
Riverside Unified School District
Riverside, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Riverside Unified School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Riverside Unified School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Riverside Unified School District, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 11, General Fund Budgetary Comparison Schedule on page 60, Schedule of Changes in the District's Total OPEB Liability and Related Ratios on page 61, Schedule of OPEB Contributions on page 62, Schedule of the District's Proportionate Share of the Net OPEB Liability – MMP Program on Page 63 and Schedules of the District's Proportionate Share of Net Pension Liability and Contributions on pages 64 through 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Riverside Unified School District's basic financial statements. The combining and individual nonmajor fund financial statements, and schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying other supplemental information is presented for purposes of additional analysis as required by the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, other supplementary information, and schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, other supplementary information, and schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2021, on our consideration of Riverside Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Riverside Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Riverside Unified School District's internal control over financial reporting and compliance.

RIVERSIDE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION & ANALYSIS
For the Fiscal Year Ended
June 30, 2020

INTRODUCTION

The Management's Discussion and Analysis of Riverside Unified School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of the analysis is to look at the District's financial performance as a whole; readers should also review the auditor's letter, notes to the basic financial statements and the basic government-wide financial statements to enhance their understanding of the District's financial performance.

With schools dating back to the 1870s, the award-winning Riverside Unified School District (RUSD) is now the 16th largest school district in California. RUSD educates nearly 42,000 students across 50 schools in Riverside. The District serves a large portion of Riverside as well as the unincorporated areas of Highgrove and Woodcrest. RUSD is led by its 11th Superintendent, Dr. David C. Hansen and is governed by a Board of Education comprised of publicly elected officials who serve five different trustee areas.

USING THE COMPREHENSIVE ANNUAL FINANCIAL REPORT

- This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Riverside Unified School District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.
- The "Statement of Net Position" and "Statement of Activities" provide information about the activities of the whole district, presenting both an aggregate view of the District's finances and a longer-term view of those finances. "Fund Financial Statements" provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's major funds with all special revenue funds and other nonmajor funds.
- The major funds for Riverside Unified School District are the General Fund, Building Fund, Capital Facilities Fund and Bond Interest and Redemption Fund.
- The Management's Discussion and Analysis is provided to assist our citizens, taxpayers and investors in reviewing the District's finances.

FINANCIAL HIGHLIGHTS

- The Riverside Unified School District's Government-Wide Statement of Net Position shows Total Net Position of \$111,048,472, the result of assets and deferred outflows of resources of \$1,236,933,210, less liabilities and deferred inflows of resources of \$1,125,884,738.
- The District implemented GASB Statement No. 68, which requires the District to report its proportionate share of the Net Pension Liabilities of CalPERS and CalSTRS. At June 30, 2020, the District's proportionate share of the Net Pension Liabilities was \$534,464,676.
- The District implemented GASB Statement No. 75, which requires the District to report the Net OPEB liability. At June 30, 2020, the District's Net OPEB liability was \$43,189,695.

RIVERSIDE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION & ANALYSIS
For the Fiscal Year Ended
June 30, 2020

- General revenues accounted for \$458,152,783 in revenue or 79% of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$123,339,590 or 21% of total revenues of \$581,492,373.
- The District had \$584,112,637 in expenses related to governmental activities; \$123,339,590 of these expenses were offset by program specific revenues in the form of charges for services, grants and contributions. General revenues (primarily unrestricted federal and state aid and property taxes) of \$458,152,783 provided a change in Net Position of \$(2,620,264).
- The General Fund reported a positive fund balance of \$77,707,370.

REPORTING THE DISTRICT AS A WHOLE

▪ THE STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" "The Statement of Net Position" and "The Statement of Activities" report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. However, the Riverside Unified School District's goal is to provide services to our students, not to generate profits as commercial entities do. The reader will need to consider other non-financial factors as well as factors such as property tax base, current property tax laws, student enrollment growth and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the "Statement of Net Position" and the "Statement of Activities," the District is divided into two distinct kinds of activities:

- Governmental Activities – Most of the District's programs and services are reported here, including instruction, pupil services including transportation and food services, administration, plant services, facilities acquisition and construction, interest on the long-term debt and other services.
- Business-Type Activities – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. Riverside Unified School District does not have any of these types of activities at this time.

▪ FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about the most significant funds, not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and for compliance with various grant provisions.

RIVERSIDE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION & ANALYSIS
For the Fiscal Year Ended
June 30, 2020

▪ GOVERNMENTAL FUNDS

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting. Governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements. Governmental funds include most of the primary funds of the District.

▪ PROPRIETARY FUNDS

When the District charges other District funds for the services it provides, these services are reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and Statement of Activities. In fact, the District's internal service fund is included within the governmental activities reported in the district-wide statements. The Internal Service Fund statements provide more detail and additional information, such as cash flow. The District uses the internal service fund to report activities that relate to the District's self-insured program for health insurance, workers' compensation claims and liability and property losses.

▪ FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District uses an agency fund to account for resources held for student activities and groups. These funds include Associated Student Body funds.

The Riverside Unified School District is the trustee, or fiduciary, for its student activity funds. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The Riverside Unified School District is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

▪ NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

GENERAL FUND BUDGET INFORMATION

The District's budget is prepared in accordance with California law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The District begins the budget process in January of each year. By law, the Governing Board must adopt a Final Budget by July 1. A public hearing is held and the board adopts the Budget in late June. During the course of the fiscal year, the District revises its budget as it deals with changes in revenues and expenditures. Adjustments made to the budget include revisions at First Interim, which is normally presented in December, and Second Interim, which is normally presented in March, at which time the budgets are presented for approval.

▪ **GENERAL FUND BUDGET VARIATIONS**

For the General Fund, actual revenues were \$513,399,257 with final budget estimated at \$524,586,522. The difference of \$(11,187,265) is due to reduced spending of federal and state programs as a result of school closures caused by the COVID-19 pandemic.

RIVERSIDE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION & ANALYSIS
For the Fiscal Year Ended
June 30, 2020

There are several reasons for expenditure budget revisions. Most notable is “rebudgeting” of budgeted but unspent dollars from previous years. The original budget does not presume negotiated salary increases. Also, any changes in the number of staff and/or staff utilization of health and welfare benefits that vary from the original projections would also require budget revisions.

The implementation of new instructional programs can also affect budget projections. New academically focused programs will impact expenditures in personnel, instructional materials, outside services and supplies.

▪ CAPITAL ASSETS AND DEBT ADMINISTRATION

• CAPITAL ASSETS

At the end of the fiscal year 2019-20, the District had \$627,341,042 invested in land, buildings, furniture and equipment. Table 4 shows fiscal year 2019-20 and 2018-19 balances.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Riverside Unified School District's enrollment has been declining steadily over the last several years. From 2018/2019 to 2019/2020, the District saw a decline of 521 in TK-12 enrollment and expects the trend to continue for several more years, but has built projected decline into revenue and expenditure projections.

The Governing Board has made a commitment to fiscal solvency; maintaining responsible reserves while protecting educational and instructional programs. With careful planning and monitoring of the financial condition, Riverside Unified School District is confident that we can continue to provide a quality education for our students and meet the challenges of the future.

The uncertainty that has been created by COVID- 19 has the District closely monitoring changes in projected revenues from the State. Strong fiscal policies have created reserve balances that will allow the District time before any drastic decisions would need to be considered.

▪ CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Erin Power, Director Business Services at Riverside Unified School District, 6050 Industrial Ave., Riverside CA 92504 or (951) 352-6729.

RIVERSIDE UNIFIED SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
 JUNE 30, 2020

Total Fund Balances - Governmental Funds	\$	343,271,016
Amounts reported for governmental activities in the statement of net position are different because:		
In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation. The cost of the assets is \$920,326,029 and accumulated depreciation is \$292,984,987.		
		627,341,042
In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period it is incurred. The additional liability for unmatured interest owing at the end of the period was:		
		(6,620,820)
In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities at year-end consist of:		
General Obligation Bonds	\$ 388,914,382	
Net OPEB Liability	43,189,695	
Certificates of Participation	14,741,209	
Net Pension Liability	534,464,676	
Compensated Absences	7,287,713	
Early Retirement Incentive	<u>13,376,496</u>	(1,001,974,171)
Deferred amounts on refunding represents amounts paid to an escrow agent in excess of the outstanding debt at the time of the payment for refunded bonds which have been defeased. In the government-wide statements, it is recognized as a deferred outflow of resources. The remaining deferred amounts on refunding at the end of the period were:		
		6,227,335
In governmental funds, deferred outflows and inflows of resources related to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources related to pensions are:		
Deferred outflows of resources related to pensions		147,895,261
Deferred inflows of resources related to pensions		(26,545,244)
In governmental funds, deferred outflows and inflows of resources related to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources related to OPEB are:		
Deferred outflows of resources related to OPEB		14,544,979
Deferred inflows of resources related to OPEB		(17,318,136)
Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to operate for the benefit of governmental activities, assets and liabilities of internal service funds are reported with governmental activities in the statement of net position. Net position for internal service funds are:		
		<u>24,227,210</u>
Total Net Position - Governmental Activities	\$	<u><u>111,048,472</u></u>

RIVERSIDE UNIFIED SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Total Net Change in Fund Balances - Governmental Funds \$ 127,255,879

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay	\$ 84,675,983	
Depreciation Expense	<u>(18,614,711)</u>	66,061,272

In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. (213,781,610)

In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. (2,814,571)

In the governmental funds, repayment of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were: 45,061,197

In the government-wide statements, expenses must be accrued in connection with any liabilities incurred during the period that are not expected to be liquidated with current financial resources, in addition to compensated absences and long-term debt. Examples include special termination benefits such as retirement incentives financed over time, and structured legal settlements. This year, expenses incurred for such obligations were: 3,487,059

In governmental funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. (32,367,321)

In governmental funds, OPEB costs are recognized when employer contributions are made. In the statement of activities, OPEB costs are recognized on the accrual basis. This year, the difference between OPEB costs and actual employer contributions was: (434,639)

In the statement of activities, compensated absences (vacation) are measured by the amount earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). (1,279,360)

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to benefit governmental activities, internal service activities funds are reported as governmental activities in the statement of activities. The net increase in the internal service fund was: 3,848,645

REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Deferred amounts on refunding represents amounts paid to an escrow agent in excess of the outstanding debt at the time of the payment for refunded bonds which have been defeased. In governmental funds, these charges are recognized as an expenditure. However, in the statement of activities, these amounts are amortized over the life of the debt.

\$ 1,575,000

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount, plus any deferred gain or loss from debt refunding, is amortized as interest over the life of the debt. Amortization of debt issue premium or discount, or deferred gain or loss from debt refunding, for the period is:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Riverside Unified School District follow to accounting principles generally accepted in the United States of America as applicable to governments and to general practices within California school districts, as prescribed by the Governmental Accounting Standards Board and by the American Institute of Certified Public Accountants. The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's California School Accounting Manual. The following is a summary of the significant accounting policies:

Fund Accounting

The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance or retained earnings, revenues and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District accounts are organized into major, nonmajor and fiduciary funds.

Major Governmental Funds:

General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Building Fund is used to account for the acquisition of major governmental capital facilities and buildings from the sale of bond proceeds.

Capital Facilities Fund is used to account for resources received from developer fees.

Bond Interest and Redemption Fund is used to account for the accumulation of resources for the general obligation bonds, interest and related costs

Nonmajor Governmental Funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The District maintains three nonmajor special revenue funds.

- Adult Fund is used to account separately for federal, state and local revenues that are restricted or committed for adult education programs.
- Child Development Fund is used to account for resources dedicated to child development programs maintained by the District.
- Cafeteria Fund is used to account for revenues received and expenditures made to operate the District's food service operations.

Debt Service Funds are used to account for the accumulation of resources for, and the payment of general long-term debt principal, interest and related costs. The District maintains one nonmajor debt service fund.

- Debt Service Fund is used for the accumulation of resources for and the retirement of principal and interest on general long-term debt.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

Capital Projects Funds are used to account for the acquisition and/or construction of all major governmental general fixed assets. The District maintains three nonmajor capital projects funds.

- County School Facilities Fund is used to account for revenues and expenditures for County School Facilities Program (SB40) approved projects.
- Special Reserve Fund is used to account for revenues received and expenditures made in connection with maintenance of the District Property.
- Blended Component Unit – Capital Projects Fund is used to account for capital projects financed by Mello-Roos Community Facilities Districts and other similar entities that are considered to be blended component units of the District.

Fiduciary Funds:

Private Purpose Trust Funds: The District maintains two Trust funds. The Retiree Benefit Fund exists to account separately for amounts held in irrevocable contributions for employee’s retirement benefit payments and its own earnings. The Scholarship Fund is used to finance scholarships awarded to deserving students.

Agency Funds are used to account for assets held by the District as trustee. The District maintains an agency fund for each school that operates an associated student body. The District also maintains a Debt Service Fund for Special Tax Bonds to account for the debt service activity of the CFDs.

Reporting Entity

The Riverside Unified School District (the District), the Riverside Unified School District Financing Authority (the Authority), the Riverside Unified School District School Facilities Corporation (the Corporation) and Community Facilities Districts (CFDs) have a financial and operational relationship which meets the reporting entity definition criteria of GASB Statement No. 14, The Financial Reporting Entity, for inclusion of the entities as a component unit of the District. The entities were created for the specific and primary purpose of providing financing assistance to the District for construction and acquisition of major capital facilities.

The following are those aspects of the relationship between the District, the Authority, the Corporation and the CFDs which satisfy GASB Statement No. 14 criteria:

Oversight Responsibility:

1. The Authority and Corporation's Board of Directors were appointed by the District's Board of Education.
2. The District is able to impose its will upon the Authority, Corporation and CFDs, based on the following:
 - The Authority, Corporation and CFDs have no employees. The District’s Chief Business Official functions as an agent of the entities. The Chief Business Official does not receive additional compensation for work performed in this capacity.
 - The District exercises significant influence over operations of the Authority, Corporation and CFDs as it is anticipated that the District will be the sole lessee of the Authority, Corporation and CFDs for a leasehold interest in an existing school site. Likewise, it is anticipated that the District’s lease payments will be the sole revenue source of the Authority, Corporation and CFDs, with the exception of interest.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

- All major financing arrangements, contracts, and other transactions of the Authority, Corporation and CFDs must have the consent of the District.
3. The Authority, Corporation and CFDs provide specific financial benefits or impose specific financial burdens on the District based on the following:
- Any deficits incurred by the Authority and the Corporation will be reflected in the lease payments of the District. Any surpluses of the Authority and the Corporation revert to the District at the end of the lease period.
 - The District has assumed a “moral obligation,” and potentially a legal obligation, for any debt incurred by the Authority, Corporation and CFDs.

Financial Presentation

The financial activities of the Authority, Corporation and CFDs are presented in Blended Component Unit - Capital Projects Fund and Debt Service Fund for Special Tax Bonds.

Basis of Presentation

Government-wide Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District and its component units.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund and fiduciary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District’s governmental activities.

Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Proprietary and Fiduciary funds are reported by fund type.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other uses) in net current assets.

Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and Fiduciary funds use the accrual basis of accounting.

Revenues – exchange and non-exchange transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Available” means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, “available” means collectible within the current period or within 60 days after year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue:

Unearned revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants received before eligibility requirements are met are recorded as unearned revenue.

Expenses/Expenditures:

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

RIVERSIDE UNIFIED SCHOOL DISTRICT

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. By State law, the District's Board of Education must adopt a budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's Board of Education satisfied these requirements.

These budgets are revised by the District's Board of Education during the year to give consideration to unanticipated income and expenditures. The final revised budget that is presented in the financial statements consists of the original Board approved documents plus all revisions through June 30, 2020.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Accounting Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures (expenses) during the reporting period. Actual results could differ from those estimates.

Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All outstanding encumbrances were liquidated at June 30.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Inventory

Inventory in the General Fund and Cafeteria Fund consists mainly of expendable supplies held for consumption. Inventories are recorded using the consumption method, in that inventory acquisitions are initially recorded in inventory (asset) accounts, and the cost is recorded as an expenditure at the time individual inventory items are requisitioned. In general, inventories are valued on the weighted average method. Reported inventories are equally offset by a fund balance reserve which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of fund balance.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset, significantly increase capacity or increase utility are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life in Years</u>
Buildings and Improvements	20-50
Furniture and Equipment	2-15

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “due to/from other funds.” These amounts are eliminated in the governmental activities columns of the statement of net position.

Compensated Absences

All vacation pay plus related payroll taxes are accrued when incurred in the government-wide financial statements. An expenditure for these amounts is reported in the governmental funds only if they have been paid, i.e., as a result of taking vacation time.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District’s policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Net Position in the Government-Wide Financial Statements

In the government-wide Statement of Net Position, the net position amount can be classified and displayed in three components:

- Net Investment in Capital Assets – This consists of capital assets net of accumulated depreciation and reduced by any long-term borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position.
- Restricted – This consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.
- Unrestricted – This consists of the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

Fund Balance Reserves and Designations

In the governmental funds Balance Sheet, fund balance amounts are reported within the fund balance categories below:

- Nonspendable – This is fund balance associated with revolving cash funds, inventories and prepaids.
- Restricted – This includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- Committed – This includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Education (the District’s highest level of decision-making authority).
- Assigned – These funds are intended to be used by the government (District) for specific purposes, but do not meet the criteria to be classified as restricted or committed.
- Unassigned – This is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications.

When fund balance resources are available for a specific purpose in multiple classifications, the District would use the most restrictive funds first.

Deferred Outflows and Deferred Inflows of Resources

Included in the Statement of Net Position are separate sections for deferred outflows and deferred inflows of resources.

Deferred outflows of resources is a consumption of net assets or net position that is applicable to a future reporting period. Deferred inflows of resources is an acquisition of net assets or net position that is applicable to a future reporting period. Deferred outflows and deferred inflows of resources have been reported as a result of recording the net pension liabilities and pension expense.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the CalPERS Schools Pool Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (CalPERS Plan) and CalSTRS Schools Pool Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (CalSTRS Plan) and additions to/deductions from the CalPERS Plan and CalSTRS Plan’s fiduciary net positions have been determined on the same basis as they are reported by the CalPERS Financial Office and CalSTRS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB 68 requires that the reported results must pertain to liability and asset information within certain defined time frames. For this report, the following time frames are used:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Measurement Period	July 1, 2018 to June 30, 2019

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bonds payable includes applicable bond premiums.

In the fund financial statements, governmental funds recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of the debt issued and premiums or discounts are reported as other financing sources/uses.

Local Control Funding Formula/Property Tax

As a result of the 2013-14 state budget package, the District's state apportionments are based on a Local Control Funding Formula (LCFF). The LCFF creates base, supplemental, and concentration grants (by grade span) in place of most previously existing K-12 funding streams, including revenue limits and most state categorical programs. Full implementation of LCFF was realized in fiscal year 2018-19.

Riverside County is responsible for assessing, collecting and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding March 1, which is also the lien date. Property taxes on the secured roll are due on November 1 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (March 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when received by the District. The County apportions secured property tax revenue in accordance with the alternate method of distributions prescribed by Section 4705 of the California *Revenue and Taxation Code*. This alternate method, also known as the Teeter Plan, provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll – approximately October 1 of each year.

The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local LCFF sources by the District.

The California Department of Education reduces the District's LCFF entitlement by the District's local property tax revenue. The balance is paid from the State General Fund, and is known as the State Apportionment.

New Accounting Pronouncements

The following Governmental Accounting Standards Board (GASB) statements are effective for FY 2019-20 financial statement audits:

- GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. This Statement was effective immediately upon issuance in May 2020.

The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

The effective dates of certain provisions contained in the following pronouncements are postponed by one year:

- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, Fiduciary Activities
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements
- Statement No. 89, Accounting for Interest Cost Incurred before the End of Construction Period
- Statement No. 90, Majority Equity Interests
- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 202
- Statement No. 93, Replacement of Interbank Offered Rates

The effective dates of the following pronouncements are postponed by 18 months:

- Statement No. 87, Leases
- GASB Statement No. 83, *Certain Asset Requirement Obligations*. The requirements of this Statement are effective for reporting periods beginning after June 15, 2019 (Note application was postponed by Statement No. 95). Earlier application is encouraged.

The primary objective of this Statement is to enhance comparability of financial statements among governments by establishing uniform criteria for governments to recognize and measure certain asset retirement obligations (AROs), including obligations that may not have been previously reported. This Statement also will enhance the decision-usefulness of information provided to financial statement users by requiring disclosures related to those AROs.

- GASB Statement No. 84, *Fiduciary Activities*. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (Note application was postponed by Statement No. 95). Earlier application is encouraged.

The primary objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

- GASB No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (Note application was postponed by Statement No. 95). Earlier application is encouraged.

The primary objective of this Statement is to improve the information that is disclosed in notes to governmental financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

- GASB Statement No. 90, *Majority Equity Interest*. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (Note application was postponed by Statement No. 95). Earlier application is encouraged.

The primary objective of this Statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Riverside County Treasury as part of the investment pool which has a balance on June 30, 2020 of \$7,775,589,311. The County pools these funds with those of other entities in the County and invests the cash. These pooled funds are carried at cost which approximates market value. The District is considered to be an involuntary participant in the external investment pool. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The fair market value of this pool as of June 30, 2020, as provided by the pool sponsor, was \$7,804,218,376. The County is required by Government Code Section 53635 pursuant to section 53601 to invest in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury and in Money Market Mutual Fund U.S. Treasury Fund obligations. The District maintains an investment with the Riverside County Investment Pool with a fair value of approximately \$369,579,714 and an amortized book value of \$368,223,944. The average weighted maturity for this pool is 410 days.

The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2020, the District had no significant interest rate risk related to cash and investments held.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The District does not have a formal investment policy that limits its investment choices other than the limitations of State law.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not place limits on the amount it may invest in any one issuer. At June 30, 2020, the District had no concentration of credit risk.

Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. However, the California Government code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105% of the secured deposits.

Cash in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC). All cash held by the financial institutions is fully insured or collateralized.

The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the County are either secured by federal depository insurance or are collateralized.

Investments – Interest Rate Risk

The District’s investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District’s investment policy limits investment purchases to investments with a term not to exceed three years. Investments purchased with maturities terms greater than three years require approval by the Board of Education. Investments purchased with maturities greater than one year require written approval by the Superintendent prior to commitment. Maturities of investments held at June 30, 2020 consists of the following:

<u>Investment Maturities</u>	<u>Fair Value</u>	<u>Maturity</u>
Investments:		
U.S. Bank - Money Market	\$ 15,637,648	Varies
U.S. Bank - US Government Bonds	724,341	Varies

Mutual Fund - Real Estate	1,411,460	N/A
	<u>\$ 39,955,383</u>	

Investments – Credit Risk

The District’s investment policy limits investment choices to obligations of local, state and federal agencies, commercial paper, certificates of deposits, repurchase agreements, corporate notes, banker acceptances, and other securities allowed by State Government Code Section 53600. At June 30, 2020, all investments represented mutual funds and governmental securities which were issued, registered and held by the District’s agent in the District’s name.

Investments – Concentration of Credit Risk

The District does not place limits on the amount it may invest in any one issuer. At June 30, 2020, the District had the following investments that represent more than five percent of the District’s net investments.

U.S.Bank - Money Market	39.1%
Mutual Fund - Fixed Income	32.7%
Mutual Fund - Domestic Equity	18.2%

4. INTERFUND TRANSACTIONS

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefited fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are netted as part of the reconciliation to the government-wide financial statements.

A. Interfund Receivables/Payables (Due To/Due From)

Individual fund interfund receivable and payable balances at June 30, 2020, are as follows:

10. NON-OBLIGATORY DEBT

Non-obligatory debt are debt issuances by the Community Facility Districts (CFD) encompassed in the Riverside Unified School District's geographic area. These debt issuances are authorized by the Mello-Roos Community Facilities Act of 1982 as amended, and the Marks-Roos Local Bond Pooling Act of 1985, and are payable from special taxes levied on property in each CFD according to a methodology approved by voters in each CFD. Neither the faith, credit or taxing power of Riverside Unified School District is pledged to the payment of the bonds. Reserves have been established using bond proceeds to meet delinquencies if they should occur. If delinquencies occur beyond the amount reserved, the District has no responsibility to pay the delinquency from any of their available funds. The District acts only as an agent for paying the taxes levied and paying the bondholders. The District may also initiate foreclosure proceedings. Special assessment debt related to CFDs of \$122,305,000 as of June 30, 2020 does not represent debt of the District and, as such, does not appear in the financial statements.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2020

11. DEFERRED OUTFLOWS FROM DEFEASANCE OF DEBT

The District defeased certain long-term obligations (general obligation bonds and certificated of participation) by placing the proceeds of new refunding obligations in irrevocable trusts to provide for all future debt service payments on the old debt. Accordingly, the trust account assets and the liability for the defeased debt are not included in the financial statements.

The difference between the reacquisition price and the net carrying amount of the old debt is reported as deferred outflows of resources and amortized as interest expense over the life of the old debt or new debt, whichever is less. As of June 30, 2020, deferred outflows from defeasance of debt amounted to \$6,227,335.

12. OTHER POSTEMPLOYMENT BENEFITS

For the fiscal year ended June 30, 2019, the District reported net OPEB Liability, deferred outflows of resources, deferred inflows of resources and OPEB expense for the following plans:

A. District Plan

Plan Description.

The District’s single-employer defined benefit plan provides OPEB for eligible certificated, classified, and management employees of the District through the Benefit Trust Company. This Trust is an IRS Section 115 Trust that is used for the purposes of investment and disbursement of funds irrevocably designated by the District for the payment of its obligations to eligible employees and former employees of the District and their eligible dependents and beneficiaries for life, sick, hospitalization, major medical, accident, disability, dental and other similar benefits (sometimes referred to as “other post-employment benefits”, or “OPEB”). This Trust was established and is managed in compliance with the applicable Governmental Accounting Standards Board (GASB) standard for OPEB.

The District’s governing body has established by resolution a Retirement Board of Authority (the “Board”) to supervise the Trust. The Board has been established to manage, direct, and control the Fiduciary, Trust Settlor and Administrative functions. As mandated by the California Government Code, the Board shall perform all its duties with the care, skill and diligence that a prudent person would utilize. The Board shall also act solely in the interest of plan participants and beneficiaries with the sole purpose of providing benefits to them and paying only necessary and reasonable expenses for administrating the Trust. The Board shall see that the Trust’s assets are diversified in order to minimize the risk of large investment losses. The Board will have the exclusive authority to establish, execute, and interpret the Trust’s written Investment Policy Statement (IPS) which profiles the long-term investment objectives of the Trust.

Benefits Provided

The postretirement health plans and the District’s obligation vary by employee group as described below.

The Plan provides healthcare and vision benefits for retirees and their dependents. Benefits are provided through a third-party insurer. An employee who is covered by the medical plan and has met eligibility requirements listed below is eligible to elect post-retirement coverage at retirement.

Certificated Retirees: Attainment of age 55 and the completion of 15 years of full-time service out of the last 19 years prior to retirement.

Management, Confidential, and Cabinet Retirees: Retirement under PERS or STRS, attainment of age 50 (PERS) or 55 (STRS) and completion of 15 years of full-time service with 5 years of District service immediately prior to retirement.

Classified Retirees: Attainment of age 50 and completion of 10 years of District service.

Employees Covered by Benefit Terms

At June 30, 2019, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	408
Active plan members	<u>3,584</u>
Total	<u><u>3,992</u></u>

Contributions

The District has an OPEB trust with Benefit Trust Company. It is expected that trust earnings will be sufficient to satisfy benefit payment requirements to participants. Information regarding the OPEB trust with Benefit Trust Company can be obtained from the Riverside Unified School District Business Office.

Total OPEB Liability

The District’s total OPEB liability of \$63,432,334 was measured as of June 30, 2019, and was determined by an actuarial valuation as of July 1, 2019.

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases	2.50%
Investment rate of return	6.90%
Healthcare cost trend rate	6.56% for 2020, then 6.50% for 2021, decreasing 0.25% per year to an ultimate rate of 5.00%.

Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection.

The long-term expected rate of return on OPEB plan investments was provided by the Plan Sponsor and the investment advisor.

Discount Rate

GASB 75 requires a discount rate that reflects the following:

- a) The long-term expected rate of return on OPEB plan investments – to the extent that the OPEB plan’s fiduciary net position (if any) is projected to be sufficient to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return;
- b) A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher – to the extent that the conditions in (a) are not met.

Based on a projection of the plan’s cash flow, the OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the total OPEB liability was determined using the long-term expected rate of return on OPEB plan investments.

The discount rate for GASB 75 has been set equal to 6.90% which is the expected rate of return on assets.

The discount rate for GASB 74 has been set equal to 6.90% which is the expected rate of return on assets.

B. Medicare Premium Payment (MPP) Program

Plan Description

The MPP Program is a cost-sharing multiple-employer other postemployment benefit (OPEB) plan established pursuant to Chapter 1032, Statutes of 2000 (SB 1435). CalSTRS administers the MPP Program through the Teacher’s Health Benefit Fund (THBF).

A full description of the MPP Program including benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2018 annual actuarial valuation report, Medicare Premium Payment Program. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/actuarial-financial-and-investor-information>.

Benefits Provided

The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible members of the Deferred Benefit (DB) Program who were retired or began receiving a disability allowance prior to July 1, 2012, and were not eligible for premium-free Medicare Part A. The MPP Program is closed to new entrants as members who retire on or after July 1, 2012, are not eligible for coverage under the MPP Program.

As of June 30, 2019, 5,744 retirees participated in the MPP Program. The number of retired members who will participate in the program in the future is unknown because eligibility cannot be predetermined.

The MPP Program is funded on a pay-as-you-go basis from a portion of monthly employer contributions. In accordance with California Education Code section 25930, contributions that would otherwise be credited to the DB Program each month are instead credited to the MPP Program to fund monthly program and administrative costs. Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020

Total OPEB Liability

At June 30, 2020, the District reported a liability of \$2,395,779 for its proportionate share of the net OPEB liability for the MPP Program. The total OPEB liability for the MPP Program as of June 30, 2019, was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2018, and rolling forward the total OPEB liability to June 30, 2019. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts and the State, actuarially determined.

For the year ended June 30, 2020, the District reported OPEB expense of \$(127,885).

Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Measurement Date	June 30, 2019
Valuation Date	June 30, 2018
Experience Study	July 1, 2010, through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	3.50%
Healthcare Cost Trend Rate	3.70% for Medicare Part A, and 4.10% for Medicare Part B

In addition, assumptions were made about future participation (enrollment) into the MPP Program because CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' age increases. This estimated enrollment rate was then applied to the population of members who may meet criteria necessary for eligibility and are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 459, or an average of .23 percent of the potentially eligible population of 165,422.

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table issued by the Society of Actuaries.

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MMP Program as of June 30, 2019, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

Discount Rate

The discount rate used to measure the total OPEB liability was 3.50%. The MPP Program is funded on a pay-as-you-go basis and under the pay-as-you-go method the OPEB plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 3.50 percent, which is The Bond Buyer's 20-Bond GO Index from Bondbuyer.com as of June 30, 2019, was applied to all periods of projected benefit payments to measure the total OPEB liability. The discount rate decreased 0.37% from 3.87% as of June 30, 2018.

15. NET PENSION LIABILITY

General Information About the Pension Plans

Plan Descriptions

Qualified employees are covered under cost-sharing multiple-employer defined benefit pension plans maintained by agencies of the State of California. Classified employees are members of the California Public Employees' Retirement System (CalPERS) and certificated employees are members of the California State Teachers' Retirement System (CalSTRS). Benefit provisions under the plans are established by State statute and Local Government resolution. Support by the State for the CalSTRS plan is such that the plan has a special funding situation as defined by GASB Statement No. 68. CalPERS and CalSTRS issue publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on their respective websites.

Benefits Provided

CalPERS and CalSTRS provide service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members. Benefits are based on years of credited service, equal to one year of service credit for each year of full-time employment. Members with five years of total service are eligible to retire at age 62 for normal benefits or at age 55 with statutorily reduced benefits. Employees hired prior to January 1, 2013, are eligible to retire at age 60 for normal benefits or at age 55 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. All members are eligible for death benefits after one year of total service.

Contributions - CalPERS

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The CalPERS Board retains the authority to amend contribution rates. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2019 (measurement date), employees hired prior to January 1, 2013 paid in 7.00%, employees hired on or after January 1, 2013 paid 6.00%, and the employer contribution rate was 13.88% of annual payroll. For the fiscal year ending June 30, 2020, employees hired prior to January 1, 2013 contributed 7.00%, employees hired on or after January 1, 2013 contributed 7.00%, and the employer's contribution rate was 19.721%.

On-Behalf Payments

Consistent with Section 20825.2 of the Government Code, the State of California appropriated \$904,000,000 from the General Fund for the 2018-19 fiscal year to be apportioned as follows:

- a) \$144,000,000 to pay in advance, on behalf of school employers, part of the contributions required by school employers pursuant to this part for the 2019-20 fiscal year.
- b) \$100,000,000 to pay in advance, on behalf of school employers, part of the contributions required by school employers pursuant to this part for the 2020-21 fiscal year.
- c) \$660,000,000 shall be applied to the unfunded liabilities for the school employers whose assets and liabilities are merged pursuant to subdivision (a) of Section 20618.

Any payments made pursuant to this section shall not discharge the school employers for any remaining amounts due and payable pursuant to this part.

Contributions - CalSTRS

For the measurement period ended June 30, 2019 (measurement date), Section 22950 of the California Education Code requires members to make monthly contributions of 10.205% of the creditable compensation upon which members' contributions under this part are based. In addition, the employer required rates established by the CalSTRS Board have been established at 17.100% of creditable compensation. Rates are defined in Section 22950.5 through measurement period ending June 30, 2021. Section 22950.5 states, "For fiscal year 2021-22 and each fiscal year thereafter, the board shall increase or decrease the percentages paid specified in this section from the percentage paid during the prior fiscal year to reflect the contribution required to eliminate by June 30, 2046, the remaining unfunded actuarial obligation with respect to service credited to members before July 1, 2014, as determined by the board based upon a recommendation from its actuary."

On-Behalf Payments

Consistent with Section 22955.1 of the California Education Code, the State of California makes contributions to CalSTRS on behalf of employees working for the District. For the measurement period ended June 30, 2018 (measurement date), the State contributed 9.125% of salaries creditable to CalSTRS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements.

NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2020

The District's net pension liability for each plan is measured as the proportionate share of the net pension liability as of June 30, 2018. The total pension liability for each plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

For the year ended June 30, 2020, the District recognized pension expense of \$112,582,027. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Discount Rate

The discount rate used to measure the total pension liability was 7.15% for CalPERS and 7.10% for CalSTRS. To determine whether the District bond rate should be used in calculation of a discount rate for each plan, CalPERS and CalSTRS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount rates are adequate and the use of the District bond rate calculation is not necessary for either plan.

The stress test results are presented in a detailed report that can be obtained from the CalPERS and CalSTRS websites.

According to Paragraph 30 of GASB Statement No. 68, the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. Administrative expenses are assumed to be 15 basis points. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS and CalSTRS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalPERS and CalSTRS review all actuarial assumptions as part of their regular Asset Liability Management (ALM) review cycle. Any changes to the discount rate will require board action and proper stakeholder outreach. CalSTRS commenced a new ALM study in January 2019, and expected to have a new asset allocation in February 2020. The CalPERS new four-year asset allocation alignment became effective on July 1, 2018. CalPERS and CalSTRS will continue to check the materiality of the difference in calculation until such time as they have changed their methodology.

NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2020

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS and CalSTRS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS and CalSTRS financial reports.

16. JOINT POWERS AGREEMENTS

The District has entered into a joint power agreement (JPA) with the Alliance of Schools for Cooperative Insurance Programs (ASCIP) units, as allowed by the California Government Code. This JPA has budgeting and financial reporting requirements independent of member units, whose financial statements are not presented in these financial statements; however, fund transactions between the entity and Riverside Unified School District are included in these statements. Summarized below is certain information on the entity.

Alliance of Schools for Cooperative Insurance Programs (ASCIP)

Purpose: Arrange for and provide property and liability insurance for its members.

Participants: Other governmental agencies.

Governing Board: A representative from each member.

17. CHARTER SCHOOLS

The District has granted and approved charter schools pursuant to Education Code 47605.

The REACH Leadership STEM Academy opened on September 4, 2012. This charter school is a college preparatory elementary school for under-served youth, grades K-6. It was renewed for another five-year term on July 1, 2017.

Encore High School for the Arts – Riverside opened July 1, 2015. This charter school was a regional arts school with a rigorous academic program combined for grades 7-12. It was closed as of June 30, 2020.

18. RISK MANAGEMENT

Property and Liability

The Property and Liability Program, for which the District retains risk of loss, is administered by the Self-Insurance Fund. Excess property and liability coverage is obtained through Alliance of Schools for Cooperative Insurance Programs (ASCIP). General liability claims in excess of a \$100,000 self-insured retention are covered up to \$5,000,000 per occurrence. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Workers' Compensation

Worker's compensation claims in excess of a \$500,000 self-insured retention are covered up to \$10,000,000 per occurrence through ASCIP.

Employee Medical Benefits

Employee life, health, and disability programs are administered through the purchase of commercial insurance and self-insurance.

Unpaid Claims Liability

The District establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

19. COMMITMENTS AND CONTINGENCIES

A. Federal and State Allowances, Awards and Grants

The District has received Federal and State funds for specific purposes that are subject to review and audit by the grantor agencies. If the review or audit discloses exceptions, the District may incur a liability to the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

B. Litigation

Various claims and litigation involving the District are currently outstanding. However, management of the District believes, based on consultation with legal counsel, that the ultimate resolution of these matters will not have a material adverse effect on the District's financial position or results of operations.

C. Construction Commitments

As of June 30, 2020, the District had commitments with respect to unfinished capital projects of \$422,893,079 to be paid from a combination of State and local funds.

RIVERSIDE UNIFIED SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

1. PURPOSE OF SCHEDULES

Budgetary Comparison Schedules

These schedules are required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedules present both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

Schedule of Changes in the District's Total OPEB Liability and Related Ratios

This schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). The schedule presents information as of the measurement date of the net OPEB liability.

Schedule of Proportionate Share of the Net Pension Liability

This schedule is required by GASB Statement No. 68 and is required for all employers in a cost-sharing pension plan. The schedule reports the following information:

- The proportion (percentage) of the collective net pension liability (similar to the note disclosure)
- The proportion share (amount) of the collective net pension liability
- The employer's covered-employee payroll
- The proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered-employee payroll
- The pension plan's fiduciary net position as a percentage of the total pension liability

Schedule of Pension Contributions

This schedule is required by GASB Statement No. 68 and is required for all employers in a cost-sharing pension plan. The schedule reports the following information:

- If an employer's contributions to the plan are actuarially determined or based on statutory or contractual requirements: the employer's actuarially determined contribution to the pension plan (or, if applicable, its statutorily or contractually required contribution), the employer's actual contributions, the difference between the actual and actuarially determined contributions (or statutorily or contractually required), and a ratio of the actual contributions divided by covered-employee payroll.

Benefit Changes - PERS

There were no changes to benefit terms that applied to all members of the Schools Pool. However, individual employers in the Plan may have provided a benefit improvement to their employees by granting Two Years Additional Service Credit to members retiring during a specified time period (a.k.a. Golden Handshakes). Employers that have done so may need to report this information as a separate liability in their financial statements as CalPERS considers such amounts to be separately financed employer-specific liabilities.

Changes of Assumptions – PERS

None.

Changes of Assumptions - STRS

The investment return assumption was reduced from 7.25 percent to 7.10 percent.

Changes of Assumptions - OPEB

Healthcare Cost Trend Rates were adjusted from 6.75 percent to 6.56 percent.

NOTES TO SUPPLEMENTARY INFORMATION
JUNE 30, 2020

1. PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school entities. This schedule provides information regarding the attendance of students at various grade spans and in different programs.

Schedule of Instructional Time

Districts, including basic aid districts, must maintain their instructional minutes at the 1986-87 requirements, as required by Education Code Section 46201. This schedule is required for all districts, including basic aid districts.

The District has received incentive funding for increasing instructional time as provided by the incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Riverside Unified School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the combined and combining financial statements.

The Uniform Guidance requires a disclosure of the financial activities of all Federally funded programs. This schedule was prepared to comply with the Uniform Guidance. The District did not elect to use the 10 percent de minimis cost rate.

Reconciliation of Annual Financial and Budget Report Form with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds and the total liabilities balance of the general long-term debt as reported on the SACS Form to the audited financial statements.

Schedule of Charter Schools

This schedule provides a list of Charter Schools sponsored by the District and specifies whether the Charter Schools are included in these financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Board of Education
Riverside Unified School District
Riverside, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Riverside Unified School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Riverside Unified School District's basic financial statements, and have issued our report thereon dated February 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Riverside Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Riverside Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Riverside Unified School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

We noted certain matters that we reported to management of Riverside Unified School District in a separate letter dated February 15, 2021.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Riverside Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To the Board of Education
Riverside Unified School District
Riverside, California

Report on Compliance for Each Major Federal Program

We have audited Riverside Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Riverside Unified School District's major federal programs for the year ended June 30, 2020. Riverside Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of audit findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Riverside Unified School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Riverside Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Riverside Unified School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Riverside Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Riverside Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Riverside Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Riverside Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

To the Board of Education
Riverside Unified School District
Riverside, California

Report on State Compliance

We have audited the District's compliance with the types of compliance requirements described in the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the California Education Audit Appeals Panel that could have a direct and material effect on each of the District's state programs identified below for fiscal year ended June 30, 2020.

Management's Responsibility for State Compliance

Management is responsible for compliance with state statutes, regulations, and the terms and conditions of its state awards applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each applicable program as identified in the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards and audit guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the state programs noted below occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

We did not test the Early Retirement Incentive Program because the District did not participate in the program.

Opinion on State Compliance

In our opinion, Riverside Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the statutory requirements listed in the schedule above for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance with the requirements referred to above, which is required to be reported in accordance with the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel and which is described in the accompanying schedule of audit findings and questioned costs as Findings 2020-001. Our opinion is not modified with respect to matters identified.

Riverside Unified School District's response to the noncompliance findings identified in our audit is described in the accompanying schedule of audit findings and questioned costs. Riverside Unified School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

FINDINGS 2020-001
Code 10000
Attendance Reporting

Criteria: In order to qualify for apportionment attendance, a student must be scheduled to attend school for at least the statutory minimum day requirement for the grade level and program enrolled. As per Education Code (CDE) Section 46142(a), the minimum school day in any junior high school or high school is 240 minutes and is calculated using the two-day averaging rule. However, the absolute minimum day for these grade levels may not fall below 180 minutes.

Condition: Based on our testing, it appears that some high school students did not meet the required minimum daily instructional minutes in accordance with CDE Sec.46142 (a). Students who attended four or five classes per day were not enrolled for the minimum school day on final exam days.

Questioned Costs: Not applicable

Context: We reviewed the District’s Modified Day Bell Schedule of King High School and discovered the noncompliance.

Effect: The attendance on final exam days for students with four to five classes is not allowable because the students are not enrolled for the statutory minimum day. There is no effect on ADA for this finding because the District removed the ADA before they filed the Second Period Report of Attendance. Attendance was overstated in Grades 9-12 by 574 days at Second Period, and the District has already submitted revised attendance reports.

Cause: Unknown

Recommendation: The District should review the bell schedules and policies for student enrollment to ensure that all students are enrolled for the statutory minimum day.

Views of Responsible Officials and Planned Corrective Actions: The District acknowledges that bell schedules were verified for the minimum number of instructional minutes with an assumption that all students would attend for the entire day. Going forward, the District has revised its policy to ensure that students with less than 6 classes will have an instructional day of not less than 240 minutes calculated using the two-day averaging rule.

To the Board of Education
Riverside Unified School District
Riverside, California

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Riverside Unified School District, for the year ended June 30, 2020, we considered its internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

However, during our audit we noted matters that are opportunities for strengthening internal controls and operating efficiency. The following items represent non-material conditions noted during the audit that we consider important enough to bring to your attention. We previously reported on the District's internal control over financial reporting in our report dated February 15, 2021. The Findings and Recommendations section of the audit report dated February 15, 2021, contains certain reportable conditions in the District's internal control over financial reporting. This letter does not affect our report dated February 15, 2021 on the financial statements of Riverside Unified School District.

Capital Assets and Depreciation

The District's capital assets and depreciation records are inadequate. Itemized listings for assets and depreciation are not maintained. The District has a good inventory system for noncapital equipment and should use that as a model for a revised capital asset inventory.

Miller Middle School ASB

It was noted that the ASB had undeposited funds in the amount of \$7,905 at June 30, 2020 and they were not deposited until September 24, 2020. We noted delays of up to 325 days between the date the money was received and the date it was deposited into the bank. To strengthen internal controls over cash, deposits should be made in a timelier manner, at least weekly. Money should not remain on campus over weekends, holidays or when school is out for breaks.

Sierra Middle School ASB

It was noted that the ASB had undeposited funds dating back to 2/4/20, in the amount of \$685 at the time of the audit that had not yet been deposited. All monies collected should be deposited in a timely manner, at least weekly. No monies should be left at the over weekends, holidays or when school is out for breaks.

Martin Luther King High School ASB

It was noted that revenue potentials are not prepared accurately. To strengthen internal controls over fundraising activities revenue potentials should be prepared for every fundraiser. Revenue potentials should include the number of items sold, sale price, potential revenue (number of items sold X price), and the amount actually collected. The potential revenue should be compared to the actual cash received per receipts and any differences should be investigated and noted.
